Families of DelCom Students,

Delaware Community School Corporation has missed a total of 7 school days during the 2018-2019 school year due to inclement weather. Thank you for taking time to read and understand our plan for making up required instructional days across the district. Our goals are to ensure students are being well served, be in compliance with the expectations of the Indiana Department of Education, and create space for a successful high school graduation. Many school corporations are utilizing eLearning days to make up missed instructional days. Currently, our school board and administration view instructional days in a classroom as more impactful to students' learning than an eLearning day. It is possible that with time and practice, this could change.

Delta High School

Delta High School has earned the distinction of being a *Performance Qualified School* under IC 20-24.2-4-2, meaning it was placed in the highest performance and improvement categories for the 2017-2018 school year. A performance qualified high school's required number of instructional days is flexible so long as it satisfies the criteria found in IC 20-30-2-2. Delta High School plans to utilize its status as a *Performance Qualified School* to attend 177 instructional school days for the 2018/2019 school year.

Royerton Elementary/ Albany Elementary/ Eaton Elementary/ Delta Middle School

DelCom is not currently a *Performance Qualified District*. Therefore, our elementary schools and middle school will make up two additional school days and attend a total of 179 instructional school days for the 2018/2019 school year.
